KALTE LUST ICE CREAM

Swiss Made: handmade, natural, exceptional.

With great dedication and a sense of responsibility, KALTE LUST uses primarily regional ingredients: Whenever possible, the fruit comes from local farms, and the sugar is sourced from Switzerland. Vanilla and organic chocolate are sourced from environmentally friendly, fair-trade suppliers.

The 100% organic milk comes from Jersey cows in Madiswil and Lützelflüh. Its higher fat and protein content gives the ice cream a particularly rich, creamy texture.

Fair ice cream requires fair milk—which is why animal welfare is supported through intentionally higher milk prices. Personal, regional, fair, and made with love.
